PRESS RELEASE

TANZANIA UNVEILS THE 2024 MINING INVESTMENT CONFERENCE: EXPLORING VALUE ADDITION AND EMERGING OPPORTUNITIES

29th August 2024- Dodoma

The Ministry of Minerals of the United Republic of Tanzania, in collaboration with the Tanzania Chamber of Mines (TCM), is pleased to announce the 6th Tanzania Mining and Investment Conference, which will take place from November 19th to 21st, 2024. This prestigious event will be hosted at the Julius Nyerere International Convention Center (JNICC) in Dar es Salaam, a vibrant business and international engagement hub.

Tanzania is at the forefront of the global mining industry and is endowed with abundant mineral wealth. This includes metallic minerals, rare gemstones like Tanzanite, the exceptional Winza ruby, the desirable Mahenge Spinel, and a wide range of industrial and energy minerals. With the increase of global demand of these resources, Tanzania offers unparalleled opportunities for investment in exploration, mining, mineral beneficiation, and the supply of goods and services.

The theme for the 2024 conference, **“Mineral Value Addition for Socio-Economic Development,”** sets the stage for a landmark event. As the world transitions towards green energy and the demand for critical minerals escalates, Tanzania is uniquely positioned to meet these global needs, offering extraordinary investment opportunities in mineral processing, mining, and related industries. The conference will bring together various global mining stakeholders, investors, industry leaders, researchers, and government representatives.

Participants will gain invaluable insights into Tanzania's mining policies, investment incentives, and the government's unwavering commitment to fostering a conducive environment for sustainable mining. The conference will feature keynote speeches, panel discussions, networking sessions, and **“Usiku wa Madini”** an event dedicated to honouring mining companies and individuals who have demonstrated excellence in the industry. A gem show will also showcase the vast opportunities in Tanzania's gemstone sector. These events provide unique opportunities to connect with key players in the mining sector and explore Tanzania's immense potential.

Join us to connect with industry experts, explore lucrative investment prospects, and contribute to shaping the future of mining in Tanzania and beyond.

For further information on sponsorship, registration, exhibition, and participation in the Tanzania Mining and Investment Conference 2024, please visit <https://conference.madini.go.tz> or contact Mr. Eric Peter Kategory via erick.kategory@madini.go.tz or +255714278620/+255757432409.

We look forward to welcoming you to Dar es Salaam, Tanzania, for an event that promises to influence the future trajectory of Mining globally.

Karibu Tanzania, the Home of Tanzanite.

Issued by:
Hon. Anthony Mavunde
Minister for Minerals
